## Pump Spares for Food Manufacturer

ERIKS supplier network provides OEM replacement parts

### ISSUE

A Food manufacturing plant operates a critical progressive cavity pump on their production process. After receiving a poor response to spares requests from the OEM the plant approached ERIKS Pump Technology to assist in sourcing these parts.

### SOLUTION

ERIKS, using their extensive supplier network, knew where these parts could be sourced from. ERIKS approached their supplier and received a quote for the replacement parts within minutes. ERIKS Pump Technology is aware of ensuring best value for money, with an increasing focus on operational and maintenance cost control, we understand that the price and availability of spare parts is high on the agenda when evaluating plant savings and efficiencies

ERIKS supplier offer a range of competitively priced, high performance, durable parts that offer more cost effective alternatives to branded pump parts.

Using our the suppliers global manufacturing facilities and leveraging their engineering know-how, ERIKS were able to get the parts produced at highly competitive prices. In addition the supplier are in a unique position to closely control the quality and integrity of their parts as they manufacture all the key components of a pump in-house. The supplier was the first progressing cavity pump manufacturer to be certified to ISO9001 and once again the first to achieve the upgrade Quality Management System to ISO9001:2000

### OTHER BENEFITS

- Same day delivery is available on request for stock items, to ensure minimum disruption and production stoppages. This industry leading service combined with competitive pricing gives you a trusted and valued source when buying your spare parts.

### FURTHER COMMENTS...

This application is an excellent example of how ERIKS Pump Technology ensures best value for money is consistently achieved for our clients.
