Critical Motor Overhaul

ERIKS helps customer avoid blast furnace shutdown

ISSUE

ERIKS Electro Mechanical Services at Chesterfield recieved an urgent call to overhaul two 149 / 298KW motors for a large steel manufacturer. The time frame required was critical,with no replacement motors. A delay in returning the motors in the agreed time frame would mean a complete shutdown of blast furnaces.

SOLUTION

ERIKS received the motors and work commenced through the night. ERIKS overhauled the motors and they were returned within the agreed time frame ensuring minimum impact on production and a satisfied customer.

OTHER BENEFITS

- Cost Avoidance
- Customers needs met

FURTHER COMMENTS...

Cost avoidance due to loss of production estimated in excess of £240,000.
