**Actual Saving:** £6982

**Payback Period:**

# RX Oil Transfer Unit Reduces Site Maintenance Costs

Providing fast and efficient clean-up

## ISSUE

Envopak have an annual contract with a local mobile oil filtration company. This was scheduled in as a quarterly visit at £8030 per annum. The customer was looking to reduce his annual maintenance costs, and decided to contact ERIKS for advice and support.

## SOLUTION

After a site visit and consultation with one of ERIKS filtration application engineers it was suggested that the RX Oil Transfer Unit would help reduce their maintenance costs.

These high performance units provide fast and efficient clean-up with simple maintenance procedures that require no tool changes, and enable the customer to schedule their own on-site filtration as often as required in-line with the production schedule.

## OTHER BENEFITS

- The mobile RX oil filter/transfer unit enables each machine to be filtered as and when required.
- The flexibility to use either 1, 3, 6, 12 or 25 micron filters.
- Reduction on site maintenance costs

## FURTHER COMMENTS...
