## ERIKS delivers a solution for a customer's air leak on site problem

A survey completed by ERIKS helps the company reduce energy costs significantly

### ISSUE

A leading food manufacturer customer contacted ERIKS as they had identified air leaks on their site and the company was looking to ascertain a solution and rectify the situation.

The estimated costs for air leaks are based on an estimation of the hole size of the leak at an average of 7 bar. The average cost of their electricity was given as 8.4p/kW/hour with a running time of 52 weeks a year, 24 hours a day.

### SOLUTION

To solve this issue an extensive air leak survey was carried out for the customer.

As a result of this survey ERIKS identified over 50 areas where there was air leaks, which have been tested and reported on to the customer. A total saving of £26, 546 has been shown.

### OTHER BENEFITS

- Reduced Energy
- Cost Savings

### FURTHER COMMENTS...

A total saving of £26, 546 has been shown.
