Condition Monitoring identifies major air leak issue

ERIKS identified major air leaks on site and rectified them for food manufacturer

ISSUE

The customer, a major food manufacturer, had experienced numerous air leaks on site on multiple applications.

This issue was leading to money being wasted due to a significant energy loss. The customer got in touch with ERIKS to find a solution to their problem.

SOLUTION

The customer's local Service Centre arranged for an ERIKS Condition Monitoring team to carry out an Air Leak survey on site to ascertain the losses they were experiencing. The survey highlighted an estimated total loss of £25,000 per year.

ERIKS then provided the customer with the necessary items to fix the leaks. After all leaks were rectified, a cost saving of £25,000 was happily signed off by the customer.

OTHER BENEFITS

- Energy Saving
- Cost Saving

FURTHER COMMENTS...

The customer now has the air leak survey form as part of their yearly PPM.
