Actual Saving:	£5,000
Payback Period:	12 Months

ERIKS Seals Know-How Provides Cost Savings

The Survey Completed by ERIKS Ensured Stock Rationalisation

ISSUE

ERIKS Seals experts completed a survey of a pharmaceutical customer's GxP stores and discovered that two white silicone 1 1/2" tri clamp seals to what appeared to be with exactly the same specification were being ordered from two different suppliers at two different costs.

SOLUTION

The two seals had been tested in the ERIKS laboratory based in Warrington to confirm the material specification and the correlation between the two different suppliers.

The results showed that the seals were exactly the same. In addition, ERIKS found out the two current suppliers obtained those seals from the same source which confirmed the initial report.

Based on this evidence ERIKS recommended that these seals could be purchased from one supplier and based on annual usage a saving of £5,000 could be achieved.

OTHER BENEFITS

- Stock Rationalisation
- Product Saving
- Know - How
- Positive Waste Reduction

FURTHER COMMENTS...

The survey ERIKS conducted ensured stock rationalisation and cost savings for the customer.
